II. School Climate

Suspensions and Expulsions

Data reported are the number of suspensions and expulsions (i.e., the total number of incidents that result in a suspension or expulsion). The rate of suspensions and expulsions is the total number of incidents divided by the school's total enrollment as reported by CBEDS for the given year. In unified school districts, a comparison between a particular type of school (elementary, middle, high) and the district average may be misleading. Schools have the option of comparing their data with the district-wide average for the same type of school.

	School			District		
	2004-2005	2005-2006	2006-2007	2004-2005	2005-2006	2006-2007

School Safety Plan

Comprehensive Safe School Plan

The Fresno Unified School District (FUSD) Comprehensive Safe School Plan (CSSP) provides guidance and direction to principals, faculty and staff who have emergency management responsibilities. The CSSP is used during all emergency incidents involving a FUSD School facility.

Safe School Plan

In addition to the CSSP, a safe school leadership team at each school develops a safe school plan. This plan is submitted to the school site council for approval prior to March 1st of each year.

The Safe School Plan includes the following key elements:

Safe School Leadership Team

The safe school leadership team is led by a campus administrator (usually the principal). The team consists of the Principal, the office manager, the school nurse, the campus officer (if applicable), an additional certificated employee, and an additional classified employee. Each person on the team is backed up by an alternate in case they are not on campus. This team develops the Safe School Plan at each school.

Threat Assessment Team/Student Wellness Team

This team is responsible for evaluating and mitigating threats posed by students or outside individuals. The principal, school nurse, school psychologists, and police officer are the members of this team.

First Aid Responders

Individuals who have been trained in cardiopulmonary resuscitation (CPR) and First Aid act as first responders at each campus

Student Release Team

In the event of an emergency at each campus that requires the evacuation of students from the campus, this team reunites the students with their parent/guardian

Strategies for improving school safety/climate

Using district and school site data, the school plans specific strategies to minimize problems and to promote a positive learning environment for all of students on campus

2007 – 2008 Drill Schedule

Fire Drills are conducted once per month at the elementary and middle schools and two times per year at high schools.

Lockdown Drills are conducted three times per year at all schools. Lockdown drills are strategically planned to ensure that drills account for a variety of situations.

Earthquake Drills are conducted once each year at all schools

Coordination with First Responders

Copies of both documents are provided to the Fresno Police Department, the Fresno Fire Department, and American Ambulance Service's Emergency Medical Services.

III. School Facilities

School Facility Conditions and Improvements

The district takes great efforts to ensure that all schools are clean, safe, and functional.

- Maintenance and Repair**

District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority.

- Cleaning Process and Schedule**

The district governing board has adopted cleaning standards and schedules for all schools in the district. The principal works with the custodial staff to develop cleaning schedules to ensure a clean and safe school. In addition, the District conducted a pilot program to centralize custodial services for High Schools. This process is coordinated by area coordinators and utilizes a team approach to ensure that consistent cleaning standards are upheld and products used.

- Deferred Maintenance Budget**

The district participates in the State School Deferred Maintenance Program, which provides state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems.

- Facilities Master Plan**

Fresno Unified School District (FUSD) is in the process of major change to improve our schools and the education all Fresno students receive. As a result, FUSD is creating a long range facilities master plan. This plan will provide important information on what our school facilities should look and feel like now and in the future to provide excellent education and a great school experience for all students. More information is available at: <http://www.fresnounified.org/dept/planning/masterplan/default.aspx>

- Use of Facilities Inspection Tool (FIT)**

To assist in the process of ensuring that all schools are clean, safe, and functional effort, the district uses the Facilities Inspection Tool (FIT) developed by the State of California Office of Public School Construction (OPSC). The results of this annual inspection are outlined in the two tables below.

School Facility Good Repair Status

This table displays the results of the most recently completed school site inspection to determine the school facility's good repair status.

The CSTs include English-language arts and mathematics in grades 2 through 11; science in grades 5, 8, 9, 10, and 11; and history-social science in grades 8, 10, and 11. Student scores are reported as performance levels. Detailed information regarding CST results for each grade and performance level, including the percent of students not tested, can be found at the CDE Web site at <http://star.cde.ca.gov>. Note: To protect student privacy, scores are not shown when the number of students tested is 10 or less.

The results are reported as the percent of tested students scoring at or above the national average (the 50th percentile). Detailed information regarding NRT results for each grade level can be found at the CDE Web site at <http://star.cde.ca.gov/>. IX. Accountability

Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ap/>.

API Ranks – Three-Year Comparison

This table displays the school's statewide and similar schools API ranks. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest 10 percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest 10 percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing 10 schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

API Rank	2004-2005	2005-2006	2006-2007
Statewide	1	1	1
Similar Schools	1	2	2

API Changes by Student Group – Three-Year Comparison

This table displays by student group the actual API changes in points added or lost for the past three years, and the most recent API score. Note: "N/A" means that the student group is not numerically significant.

Adequate Yearly Progress

The federal NCLB Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state’s standards-based assessments in English-language arts (ELA) and mathematics
- Percent proficient on the state’s standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ay/>.

AYP Overall and by Criteria

This table displays an indication of whether the school and the district made AYP overall and whether the school and the district met each of the AYP criteria.

Federal Intervention Program

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Completion of High School Graduation Requirements

Beginning with the graduating class of 2006, students in California public schools must pass both the English-language arts and mathematics portions of the California High School Exit Examination (CAHSEE) to receive a high school diploma. For students who began the 2005-06 school year in the 12th grade, this table displays by student group the percent of students who met all state and local graduation requirements for grade 12 completion, including having passed both portions of the CAHSEE or received a local waiver or state exemption. Due to the state's collection schedule for high school completion data, state level data for this reporting element will not be available for report cards published in the 2006-07 school year. Detailed information about the CAHSEE can be found at the CDE Web site at <http://www.cde.ca.gov/ta/tg/hs/>. Note: "N/A" means that the student group is not numerically significant.
