

Fresno Unified School District
Student Email Parent Permission Form
Acceptable Use Policy Addendum

Student _____ Date _____

School _____ Room _____

Parents and Students:

This is to inform you that your child's teacher will be using email for class assignments this year. Since school-assigned, individual email accounts are a new option for Fresno Unified students, your approval is necessary for your child to participate.

The use of email by individual students is not specifically included in the FUSD Acceptable Use Policy, which you approved earlier so this form serves as an addendum to your earlier approval of the FUSD Internet and network guidelines found in the 2004/2005 FUSD Parent Handbook and online at <http://www.fresno.k12.ca.us/technology/bp>.

With your permission, your student will be assigned his or her own username and will be allowed to send and receive email through the filtered and monitored ePALs SchoolMail system. All district policies are still in effect, and apply, as indicated in the Acceptable Use Policy. Every attempt has been made to provide safe, secured student email, however it is still the responsibility of users to follow all school rules, teacher directions and procedures and to report any inappropriate use or material to school personnel.

As explained in the Acceptable Use Policy, the use of school technology, networks, and Internet services does not create any expectation of privacy. Fresno Unified School District reserves the right to search and/or monitor any information, created, accessed, sent, received, and/or stored in any format by students on school equipment.

By signing below you are indicating once again that you understand and agree to follow the district and school policies as detailed above and in Board Policies 0440.1 and 6162.7 and their supporting Administrative Regulations. To read the entire policy, you may contact your school office or look online at www.fresno.k12.ca.us/technology/bp.

 Please Check One and Sign Below 

_____ I **DO** grant permission for my child to use the student email services referred to above to be provided by the school.

_____ I **DO NOT** grant permission for my child to use the above services provided by the school.
